Terms of Sale

## **ORDER PROCESSING, INVOICING & DELIVERY**

Orders will be processed upon receipt of a valid purchase order. Upon acceptance of a purchase order by Tech Systems, an invoice for 100% of the equipment value shall be submitted for payment.

Unless otherwise specified in the Scope of Work 100% of the installation value shall be invoiced upon completion and acceptance of the installation. Projects with schedules exceeding 30 days and/or projects delayed because of deliverables by others shall be subject to progress billing for labor based on the agreed percentage of completion to date. On orders less than \$25,000.00, the entire amount shall be billed at the time of completion.

All invoices are NET 30.

Unless otherwise specified in the Statement of Work, delivery is typically 8-12 weeks upon acceptance of order, subject to product availability, scheduling and any unforeseen supply chain disruptions.

## **TARIFFS**

Pricing outlined in this proposal reflect all known and applicable tariffs as of the date of this proposal. However, the tariff landscape remains fluid, and changes can occur with little or no advance notice. Should new tariffs, duties, or trade regulations be enacted or existing ones modified prior to execution of this proposal or during the fulfillment period, we reserve the right to adjust pricing accordingly to reflect the impact of such charges. We will communicate any necessary adjustments promptly and transparently.

## **Payment Options**

Payment Options: Tech Systems can accept payment in the form of check, ACH (Automated Clearing House) and or wire transfer. A 3% fee associated with payments made via P-card, credit card or debit card will be passed on to the client in the form of a convenience fee, in addition to the contract or invoice amount.

## **Statement of Warranty**

Tech Systems will assist with warranty claims against manufacturers due to equipment failure during the manufacturers stated warranty period. This warranty does not cover acts of nature, misuse, vandalism, or unauthorized attempts to install or repair equipment. The design and integration of the security system covered within this proposal attempts to meet the requirements as specified by the client. Tech Systems, Inc. makes no warranty nor assumes any liability as to the operation of the requested equipment.

## **LIMITATION OF LIABILITY AND LIQUIDATED DAMAGES:**

Each party shall indemnify, defend, and hold the other party and its directors, officers, and employees harmless from and against any and all third party claims (including all allegations, demands, actions, damages, losses, costs, and/or expenses) to the extent attributable to the negligence, willful misconduct, or intentional tort of the indemnifying party.

Neither Customer nor Tech Systems, Inc. shall be liable to the other, in the aggregate, for any direct damages in excess of the amounts paid by Customer to Tech Systems, Inc. during the twelve (12) months prior to the claim pursuant to the agreement under which the claim arose or \$250,000, whichever is greater, and neither party shall be liable to the other for any special, indirect, incidental, consequential or punitive damages arising out of or relating to this agreement, whether the claim alleges tortious conduct (including negligence) or any other legal theory.
